

During our meeting at Italian Hospitality School Rome, we had the incredible opportunity to showcase the prototype of our game to our esteemed project partners from Italy, Turkey, Czech Republic, Romania, Greece and Netherlands.

It was a truly momentous occasion as we unveiled our vision and received invaluable feedback from our partners. Their insights and support have been instrumental in shaping the game into something truly exceptional. We are now diligently incorporating their feedback and working tirelessly to refine the game even further. It definitely added an extra touch of excitement to our joint efforts
