Pact4Skills

Tackling the challenges of the European Education Area by building resilient, inclusive and forward-looking training to upskill HED students face the transformations in digital culture with new e-skills, intercultural and entrepreneurial competences.

The project

Digital technologies are omnipresent, whether in science, business, politics or even in the most private spheres. It was though the COVID-19 pandemic that accelerated the pace, making clear that the future will require the workforce to adapt and learn new skills in a fast-moving technological landscape, the cultural sector included. To remain competitive, the cultural domains need to apply the technology-intense-experience to innovate along with an entrepreneurial mindset besides recruiting and retaining talents. Research undertaken however by the Partnership in 2020 has revealed:

- ✓ cultural capital deficit
- ✓ 4th industrial revolution
- ✓ supply- demand divergense
- ✓ violence contamination in the digital sphere

Project Results

- ✓ The blueprint for transversal and resilient skills in digital culture.
- ✓ Rewind the museum supply exploiting the powers of the CCI..
- ✓ Transversal key competences to motivate HED students in digital culture.
- ✓ The joint recognition of skills to attract employers and networks.
- ✓ Intensive training programme for modern key competences in culture design.
- ✓ Digital pedagogy to support the digital transformation in museums and collections.

Objectives

- ✓ Research the needs of cultural agencies to develop domain specific innovation liaising results with the workforce.
- ✓ Stimulate entrepreneurial mind-sets by involving HED students into a cognitive-inquiry learning
- ✓ Improve the transparency/recognition of qualifications/competences in the cultural domains.
- ✓ Embracing novel training practices in cultural services and replicate the innovation across the EU

Project partners:

- Open University of Cyprus
- CY Cergy Paris Université
- Telavi State University
- Comunità Montana Alto Basento
- Stichting for Education on Agility Liberating Structures
- Artifactory
