Cooperation in European and other projects

The National Gallery of Slovenia is accepting proposals to participate in EU and other projects and grant calls.

The cooperation can be based on the work and mission of the Gallery: research in the field of art history, interdisciplinary projects (ecology and sustainable development, for example), exhibition projects, research and projects in the field of conservation-restoration, museum education, promotion of creativity and life-long learning, accessibility of cultural heritage to vulnerable groups, education and training of professional staff and cultural workers, digitalization, integration of IT into museum environment, multimedia, online and digital cultural projects, data base projects, specialist library projects.

You can contact us with your proposals at:
