In search of happiness

Gala Versage 2020.12.25

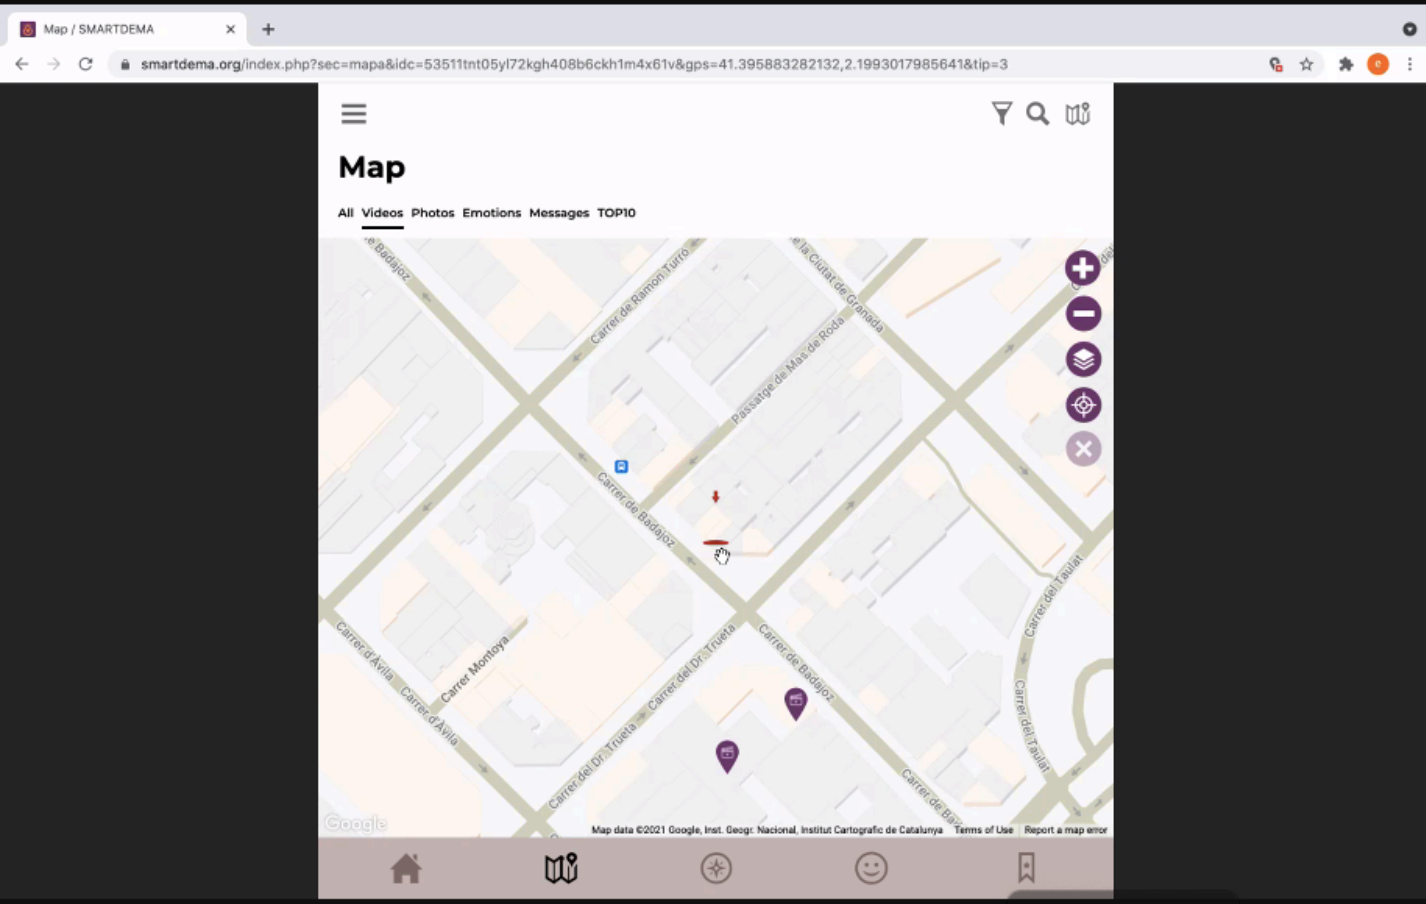

EXPERT

In search of happiness is an emotional film that encourages the importance of not losing hope and fighting for dreams. Also remember that you have to know how to appreciate the little moments of life. It tells the story of Chris Garder, a man whose work does not help him meet his basic needs or those of his son. One day they are evicted and have no choice but to wander without a stable place and try to overcome adversity.
